ACADEMICS

Master's Degree(PG) 2027
Alliance University, Bengaluru, Karnataka
Sem 1 SGPA - (8.8) | Sem 2 SGPA - (8.3)

Bachelor's Degree(UG) 2025 — 83.51%
Vishwa Chethana Degree College, Anekal, Karnataka

HSC 2022 — 89.33%
Vishwa Chethana PU College, Anekal, Karnataka

SSLC 2020 — 64.32%
Indian High School, Anekal, Karnataka

Technical Skills

Programming Languages:
- Python,Java,SQL

Data Analytics:
- Data Cleaning, EDA, Data Preprocessing, Feature Engineering

Machine Learning:
- Regression, Classification, Clustering, Anomaly Detection

Database Management:
- MySQL, MongoDB

Libraries:
- Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Keras

Tools & Technologies:
- VS Code, GitHub, Jupyter, Notebook, Streamlit, Power BI

Internship Experience

Techxonic Innovation:
Data Science Intern

- Performed Exploratory Data Analysis (EDA) on real-world datasets using Python to identify patterns, trends, and insights.
- Conducted data cleaning, preprocessing, & feature engineering using Pandas, NumPy, Matplotlib, Seaborn.
- Applied machine learning techniques and evaluated predictive models to generate actionable insights and support data-driven decisions.

Project Showcase:

- **AI-Powered Customer Churn Prediction:** Developed a machine learning model to predict customer churn using Python and Streamlit.
- **Green Route Travel Recommendation :** Built a Streamlit application to recommend eco-friendly routes based on distance and travel time.
- **UPI SecurePay – Fraud Detection:** Developed a fraud detection system using Python & Isolation Forest to identify suspicious transactions.
- **Workforce Analytics Dashboard:** Created a Power BI dashboard to analyze employee attrition, job satisfaction, and workforce trends.
- **Collab Space (Online Whiteboard) –** Collaborative online whiteboard platform enabling multiple users to draw, share ideas, and communicate in real time.

Certifications:

- Data Analysis Using Python (Penn)
- Applied Statistics for Data Analytics (DeepLearning.AI)
- Introduction to Databases (Meta)
- Advanced Data Structures and Algorithms (Packt)
- Data Analysis and Visualization with Power BI (Microsoft)
- Software Testing Fundamentals and methodologies(Microsoft)
- Computer Networks and Network Security (IBM)
- Java Programming for Beginners (IBM)
- Introduction to Front-End Development (IBM)
- Neural Networks and Deep Learning (DeepLearning.AI)
- Machine Learning with Python & Statistics (EDUCBA)
